H5P: Installing Windows Operating System

Common Operating Systems

Self-Check: Common Operating Systems

Introduction

When you open a computer, usually this will either be a Windows PC or a Macintosh computer. They will have different user interfaces or applications that may be specific to that computer. The Windows or the Mac are called *operating systems*.

The **Operating System (OS)** is a layer of software which is used to manage computer resources. It also provides an interface, so that users can utilize computer resources. It configures and manages hardware to connect the components and the applications.

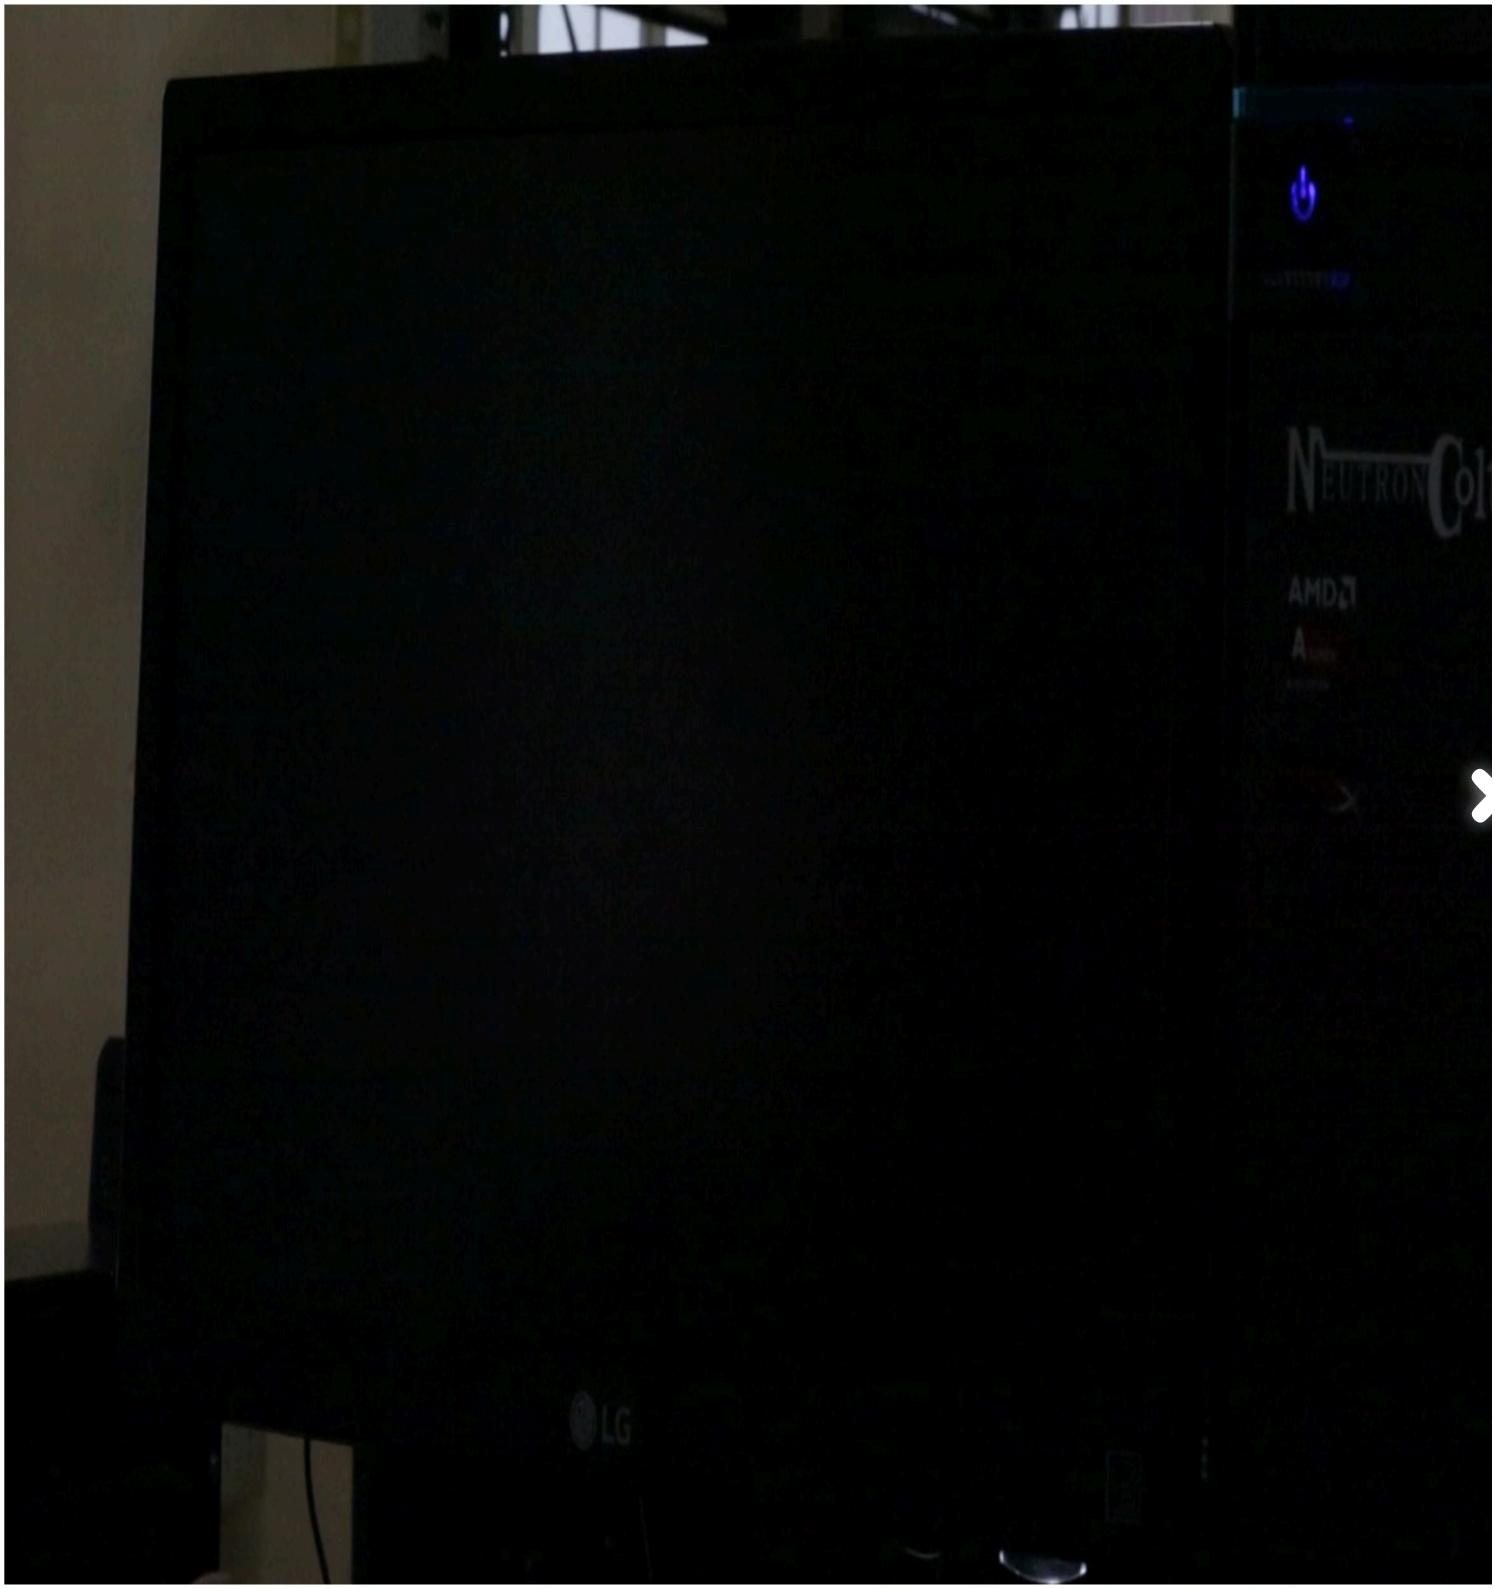
TOPIC 1: Different Operating Systems

The three most popular operating systems are **Windows, MAC**, and **Linux**.

- Windows is the dominant over the other two. 90% of computer users use Windows operating system.
- Windows and MAC are expensive operating systems however, MAC OS requires the users to buy the MAC systems (Macbook, Mac) built by Apple.
- On the other hand, Linux is a free operating system.
- Windows and MAC have similar file structures while Linux has a different code base (single file tree compared to Windows and MAC's many directories)
- Windows interface has a Start menu, Taskbar, System Tray, and the Windows Explore while Linux has easy to switch interfaces.
- Linux is most preferred by programmers, MAC is preferred by graphic artists, and Windows is perferred by gamers.

H5P: Installing Windows Operating System

Go through the step-by-step procedure on how to install a Windows operating system below:



Common Operating Systems

The following are common operating systems being used today:

Operating system	Developer		Operating system	Developer
Corel Linux	Corel		MS-DOS 5.x	Microsoft
Linux	Linux Torvalds		MS-DOS 6.x	Microsoft
MAC OS 8	Apple		Windows 2000	Microsoft
MAC OS 9	Apple		Windows 2003	Microsoft
MAC OS 10	Apple		Windows 95	Microsoft
MAC OS X	Apple		Windows 98	Microsoft
Mandrake Linux	Mandrake		Windows CE	Microsoft
MS-DOS 1.x	Microsoft		Windows ME	Microsoft
MS-DOS 2.x	Microsoft		Windows NT	Microsoft
MS-DOS 3.x	Microsoft		Windows Vista	Microsoft
MS-DOS 4.x	Microsoft		Windows XP	Microsoft
Windows 7	Microsoft		Windows 8	Microsoft
Windows 10	Microsoft
